

TECHNICAL DATA SHEET

DESCRIPTION

High density crepe paper masking tape with specially formulated pressure-sensitive, Synthetic rubber adhesive. Very high initial tack and adhesive peel strength with great holding power. One hours 120°C heat resistance, Superior wet sandability, Robust backing gives higher tensile strength and better cornering, An enhance release coat chemistry that provides for better shingling; No paint flaking upon de-masking. Premium grade for Automotive Industry.

PRODUCT APPLICATION

Automotive, truck, bus and marine spray paint masking. Top Premium Grade.

NOMINAL VALUES

The following data are nominal values based on PSTC, ASTM and other standard tests. The data should not be considered as specifications.

Backing	Crepe Paper
Adhesive	Synthetic rubber adhesive
Adhesion to Steel	≥7.5 (N/25mm)
Tensile Strength	≥30(N/cm)
Elongation (% at break)	≤20
Total Thickness (mils)	155±10 μ (0.155±0.01mm)
Temp. Resitance	120°C/1h
Color	deep yellow
